

VALLEY

NEWS

August 2021

Living in Valley is a testament to *joie de vivre*. To taste and of class. With breathtaking views of garden, rock towers, cumulus clouds and the bright lights of the city. A place where you can create your own perfect atmosphere. This is where happiness comes home.

The countdown has begun...

Cars slow down, cyclists look up. Valley catches the eye of every passer-by. The gardens have yet to be laid out, but the three rock points already tower high above the Zuidas district of Amsterdam. Now that its completion is imminent, the rental of the apartments is in full swing. Those who want to live here must act fast.

First step: register

Curious about living in Valley? Through our property finder you can view the apartments on offer and study the floor plans. Are you really interested in renting an apartment? Then first register at www.valleyliving.nl. You will then receive a personal login code with which you can register.

Registration goes as follows:

1. Go to www.valleyliving.nl
2. Click 'Login'
3. Log in with your existing data, if you don't have it yet, click 'Register'
4. Complete the questionnaire, indicate which apartment you prefer (multiple choices possible) and upload the requested documents.
5. Sign the form (digitally) and click "send".

Saving in between is possible!

And then start decorating!

Have you made a choice and been allocated an apartment? Then the time has come to think about colour, style and atmosphere. With the grandeur of Valley as a starting point, decorating your new home is a delightful challenge.

Interior designer Co van der Horst is available to help you with this. For inspiration, this purveyor to the Royal Household and preferred supplier of Valley have already furnished three luxury show apartments, varying in style, atmosphere and size (60 m², 94 m² and 127 m²). But because every apartment is slightly different and - like you - unique, as a new resident you will also receive a free consultation at the Boutique Concept Store of Co van der Horst, where you will find a showroom of 10,000 m². A wonderful place to gather ideas.

Leasing is the new way of living

The breathtaking Valley calls for a breathtaking interior. But completely furnishing your apartment obviously involves significant costs. And taking a lot of decisions, in which you could probably use some support. Valley is happy to help and offers you as a resident the option of leasing the furniture and fittings of your apartment. For this, we have developed the Interior Lease Plan. Depending on your personal wishes and contract length, you can choose from various lease options. From just the soft furnishings to a total package that includes carpeting and curtains, styling and service.
